Toleration of Crime. DES MOINES, Jan. 9. - By the Associated Press.] The Prohibition State Convention met here today and adopted a lengthy set of met ner today and adopted a rong type of resolutions. They demand from the Legislature, which is about to meet, the enactment of laws which shall compel the about the enforcement of the prohibitory law in every county, city and town in the State, intensification of the prohibitory law in every county, city and town in the State, and say that local option and high license are mere subterfuges and apologies for the toleration of crimes, and that the convention is unalterably opposed to them. The legislators are notified that continued confidence and support can only be retained by a truthful maintenance and the enforcement of the prohibitory law. Congress is asked to amend the interstate commerce law to prohibit the importation of liquors into prohibit on States, except in conformity with State regulations, and amend the internal revenue law so as to prohibit the sale of revenue stamps to liquor dealers in prohibition States, except to persons authorized by law in such States to sell ilquors. "In view of the fearful destruction of life, loss of health and injury to morals and the well-being of the people by the sale and use of intoxicating liquors," Congress is asked to appoint a commission to thoroughly investigate the question and publish for the information of the people the facts ascertained.

A Caisson at Louisville Gives Way, Carrying Down 14 Men.

Not a Trace Left of a Massive Structure of Stone and Timber.

Brooklyn Church Wrecked by Heavy Winds-Inmates of an Adjoining House Killed by Falling Walls.

Louisville, Jan. 9 .- By the Associated Press. The most appalling accident known here in many years occurred this evening about 6 o'clock. Caisson No. 1, about 100 yards from the Kentucky shore, used in the construction of the new bridge between Louisville and Jeffersonville, suddenly gave

way and the workmen employed in it were either drowned or crushed to death by stone and timbers. As the workmen at the pump ing station were looking for the men in the caisson to put off in their boats, leaving for the night, they suddenly saw the low, dark structure disappear in dashing white waves. The life-saving station was immediately notified of the accident and three skiffs were manned and pulled to THE SCENE OF THE WRECK.
Word was also sent to the police statio

Word was also sent to the police station and a squad was at once ordered to the ground to aid in the work of recovery. The site of the bridge is at the upper end of the city, just below Towhead Island. Within an hour from the disappearance of the calsson 3000 people were on the shore, and strained their eyes trying to see something of the wreckage. Dozens of boats were plying about over the spot where the calsson had stood, and lights danced to and fro with them, but there was no trace of the massive structure of stone and timber. It was soon known that only four of the 18 men who were at work at the time of the accident had escaped.

were at work at the time of the accusions had escaped.

The negroes who escaped say John Kuox, the gaing boss, had them dig too deep before letting the caisson settle. Just before the accident Knox gave some order to the keeper in charge of the upper door to the exit. He opened this door, and the compressed air which kept out the river rushed out, letting in the stream. The men say they were working in an ugly quicks and they were working in an ugly quicks and at the time. The caisson was about 40x20 feet and built of timbers 12 inches square.

THE KILLED. The list of the killed is as follows: William Haynes, aged 40; John Knox, aged 28; McAdams, aged 26, Hyde Park, Pa.; Frank Mahar, aged 23, native of New Jersey; Pai Mahar, aged 27, Philadelphia; Thomas Ash (colored), aged 30, Henderson, Ky.; Mon-roe Bowling (colored), aged 34, Henderson, Ky.; Charles Chiles (colored), aged 30, Henderson; Thomas Johnson (colored),

was caught, wast-deep in the quickstate.

Abe Taylor,

ONE OF THE SAVED,
says he stood the nearest to the iron ladder,
by which they get in and out. He heard a
rumbling, and there was a rush of air almost at the same instant. He jumped up
the rungs of the ladder, followed by the
other men. They had hardly got clear of
the caisson when the water burst through
the manhole, knocking them all into the
river, where they were picked up. Haddix
says he saw Morris, who was climbing
next below himself, swiftly drawn under
by the sand, and heard his cries for help,
but could do nothing. The caisson is not
wrecked, as was at first supposed, but has
settled down in the bed of the stream, and
is completely filled with sand and water.
The pumping station is hard at work clearing the way to the bodies, but none can be
reached tonight. There seems absolutely
no hope for any of those caught within the
caisson.

FALLING WALLS

Heavy Winds Wreck a Church in Brooklyn NEW YORK, Jan. 9 .- | By the Associated

Press.] Heavy winds last night shook the new Throop-avenue Presbyterian Church, Brooklyn, to its foundation, and at 4:30 this morning one of the walls fell with a crash on a three-story frame building adjoining and brought with it death and destruction The ruined building was tenanted by the

and brought with it death and destruction. The ruined building was tenanted by the Mott and Purdy families. They numbered nine persons. Two were carried out of the ruins so seriously injured that their death was only a question of a few hours.

The tenants in the little frame house adjoining were alarmed last night by the manner in which the church walls shook and rattled. Their own dwelling was considerably shaken, and it was with fear and trembling that they retired. Twice during the night some of the inmates were aroused by the roaring wind, but every one was in bed and asleep when the disaster occurred.

The heavy brick wall of the church fell suddenly with a crash and a heap that bore through the coesieshell structure adjoining like a battering ram. The dwelling seemed to part in twain, and instantly the shrieks and groans of the injured startled the residents for blocks about. The house was torn in such a manner that the bedroom was exposed, and in a bed within plain view of those in the street lay the dead body of Mary Purdy, borne down beneath the mass of débris. Mary and David Purdy, young people, were killed. The others were wounded.

San Francisco, Jan. 9.—The second session of the Grand Consistory of Masters of the Royal Secret (Thirty-second Degree)

Ancient and Accepted Scottish Rite of Free Masons was held in the Masonic Temple today. Reports showing the prosperous condition of the order in the State were presented, and it was stated there is \$30,000 in the treasury. The sossion closed this evening with the election of officers and the annual banquet.

Guiteau's Nephew Missing.
Chicago, Jan. 9.—L. P. Scoville, a nephew of Guiteau, the assessin of President Garfield, has disrippeared and his whereabouts are unknown. He was secretary of a local building and loan association, and it is alleged he is short in his accounts to the extent of between \$5000 and \$6000. He is a son of George Scoville, whose wife was a sister of Guiteau.

Chicago has purchased \$116,000 worth of bonds of the San Diego Street-car Company.

The supposition is that he is acting for C. B. Holmes, president of the Chicago Cable Road Company.

Coroner Jim Meredith played a new role yesterday. In a case before Judge McKirlley Sheriff Aguirre was disqualified from summoning a jury, being a party defendant. Consequently the Coroner was directed by the Court to summons a special venire of 20 jurors, and the way that jury came hustling in was a caution.

W. Francisco Contesting the Sheriff's Right to Make a Seizure-Judge Chency Tired of Delays in the Montaño Case-Notes

The manner in which people get tangled up in legal complications some times, when they invoke the aid of the law, was illustrated in a case in Judge McKinley's court yesterday. The title of the case is Francisco vs. Sheriff Aguirre et al., but several other persons are involved in the matter. Some time ago a Mrs. Edmonston leased the Ramsey House, No. 217 West Second street, together with the furniture, from Mrs. O'Hara. She ran the house some time and gave Mrs. O'Hara a bill of sale of the furniture to cover rent. After a considerable lapse of time Mrs. Edmonston made an assignment of the furniture to Andy Francisco. Finally the O'Haras became alarmed at the prospect of losing by the attitude in which affairs stood, and brought an action for claim and delivery of the property, and as a result of the suit sheriff Aguirre took possession of the house and moved the furniture and household effects out. Now Francisco, as the assignee of Mrs. Edmonston, has brought suit against the Sheriff and parties interested for the conversion of the property, asking judgment for \$5000 to make them

There are quite a number of wit-nesses in the case, and it is enlivened by the interjection of an additional element for adjudication, the claim on the part of the plaintiff that the Sheriff's office used unwarranted force in obtaining possession of the goods, breaking down locked doors and the The taking of testimony occupied the entire day. J. M. Damron, Esq., and T. J. Carran, Esq., represent the plaintiff and Messrs, Anderson, Fitzgerald & Anderson the defend-

Judge Cheney of Department No. 1 of the Superior Court is becoming restless under the constant delays in the Montano cases. One of the indictments came up again in his court yes-terday, and the usual dilatory policy ursued, the counsel not being pre pared for the setting of the case for trial. There seems to be some un-certainty in the District Attorney's office as to which indictment they wish to try. The delays incident to the numerous indictments returned by the Grand Jury and the various mo-tions for delay by Montaño's counsel have dragged the cases along for soveral months. Judge Cheney re-marked yesterday in allowing the mat-ter to go over until today that there has been delay after delay in the case until forbearance has almost ceased to be a virtue, and he notified both sides that

the indictment in question will be called today and the case set for trial. Huzen Johnson, the young man who pleaded guilty to petit larceny before Judge Cheney last week, in having stolen a bicycle, was sentenced yesterday to two months in jail and \$25 fine. Johnson is now serving a six months' sentence for a similar crime, and both together make his time nearly a year in

obliged to start at the beginning again before he can take upon himself the togs of American citizenship. Mat-thias Ruppert came before the Court with his witnesses, to go though the

pert, and the Court consequently re-fused to make the order of admission. It seems that Ruppert took out his

first papers in Arapahoe county, Colo., and in making them out the deputy inserted, by mistake, Germany as the place of nativity. Mr. Ruppert was very much disappointed at the outcome of his attempt to become a citizen, but will start in again and this time will least. Austria entriele

So constant were his efforts for the wellbeing of not only the city and county, but
the entire State of California as well, that
it would be impossible to even birefly namerate them here, and it must suffice to say
that for many years every measure for the
public good commanded his intelligent aid,

For some time past the finances of the city have been a matter of much concern to members of the Council, and the subject has been more than on Judge Van Dykeyesterday dismissed discussed by that body, either in public without prejudice an order to show cause why an injunction should not be granted in the case of Wotkyns vs. the Los Angeles, Glendale and Pasadena Railroad Company. expenses under the new charter, and the increasing demands of a rapidlygrowing city, the prospect of a heavy deficit at the end of the year has been A Report Commemorating His Good Qualities.

Frank A. Gibson, E. L. Stern and the most serious consideration of the Frank A. Gibson, E. L. Stern and C. H. Dunsmoor, a committee of the Board of Trade, have prepared the following report in commemoration of the late Hon. J. R. Brierly:

Your committee, to whom was referred the matter of drafting a testimonial of respect to the memory of Hon. John R. Brierly, late a member of this board, beging to submit the following:

It is seldom that a community sustains the loss of a man so devoted to its interests in every branch of public progress as was the late John R. The police department, being the most expensive in the city, was first looked into, but when it was suggested and salaries cut down, there was a large cut down.

secured, and a scare was created about raising rates in case the department

was reduced.
The Street Superintendent's office was next looked into, but the Retrench-ment Committee was immediately given to understand that not a single deputy, inspector, or even laborer, could be dispensed with, without hurting some one's feelings; in fact, that numerous people had been offended, because more places could not be made. And so it went, all along the line and the compittee wound in her statements. line, and the committee wound up by

In the meantime, expenses continued to pile up, and new places were created from time to time, the expense of which was comparatively small, individually, but, taken altogether.

these men took part. As the story is told, two printers and Mr. Drummond's young son were engaged late at night in working off a special edition of the Times, when Gist and Reed came in and announced that their purpose was to clean out the office. The proposition was a somewhat startling one to the printers, and they ebjected to it. The partners, however, had evidently made up their minds, and meant business. They attacked the printers, and a jolly row ensued. In the mean time young Drummond ran after his father, who came hurriedly to the office and took a hand in the affray. OLD MAN PRIESTLY.

A Sudden Taking Off by Heart Trouble.

For some time past an old man named J. M. Priestly has been living in a small house on the rear of the lot at the corner of Waters and Chavez streets. Priestly was about 50 years of age, and was incapacitated for anything like hard labor, but looked after the place on which he lived for the use of the house, and attended to the owner's horse, and whenever he could

Wednesday he was seen about the place as usual, and he dug a sack of potatoes, which carried off during the atternoon, and it is supposed sold them to buy liquor. At any rate, no one appears to have arried off during the afternoon, and it is supposed sold them to buy liquor. At any rate, no one appears to have seen him return to the place after he left with the potatoes. Yesterday morning the old man failed to show up about the place, as was his usual custom, and, after waiting an hour or two, a woman who lived near by, and was in the habit of furnishing him his meals when he was unable to get them himself, went to his cabin to himself, went to his cabin to himself, went to his cabin to have a supposed sold them to have a furning by two lengths, with himself, went to his cabin to have a furning by two lengths, with himself, went to his cabin to have a furning by two lengths, with himself, went to his cabin to have a furning by two lengths, with himself, went to his cabin to have a furning by two lengths, with himself, went to his cabin to have a furning by two lengths, with heads apart in the order named. THE recent frosts have nipped some of the tenderer plants, and housewives will miss choice flowers that were not protected. Anything that cannot be covered up can be measurably saved by smoking the morning after a frost, as the grape-growers of the North smoke their vines to nullify the worst effects of a freeze, or they may water the frosted plants well early in the morning, which will also be found a beneficial antidote. But, then, frost does not come often enough nor severely enough here to make its study much of an object, and the probability is that the sufferers from it will pocket their loss without much concern, and think no more about it till next time. protected. BEET SUGAR promises to be one of the leading interests of Southern California in the future, and the farmer fornia in the future, and the farmer having beet land—which, of course, should be low and rich—will do well to pay some attention to it, and give it a trial. This he will want to do intelligently, with a due regard to variety and the degree of sugar it should attain, for sugar beets, like wine grapes, are valuable, not merely for being beets or grapes, but for their special saccharine adaptability to the purpose for which they are intended. There

Detrying is a good business, anyway, 1912 on Southern California, and no good cow feed will ever come amiss to the thrifty farmer. Then, again, many a luxuriantly rich acre of our seacoast vicinity is handicapped with alkali to such an extent as to make it worthless for most purposes. Nowachiless to such an extent as to make it worth-less for most purposes. Now while drainage is the most effective gans of extracting alkali from land, still it is not always available, and beets are. They serve the double purpose of im-proving the land and making a valua-ble crop. Those wishing to know more about it will do well to address Mr. A. H. Denker, Los Augeles, who has taken a most commendable interest in it; or, if more convenient, Mr. Richard it; or, if more convenient, Mr. Richard amount of experiments in that direc-tion, and has contracted for an immense beet-sugar factory on his prem-

WHAT is to hinder any farmer or gardener putting up on his own place the most of the nice little delicacies gardener putting up on his own place the most of the nice little delicacies that sell so readily and so profitably in the market? Orange marmalade, for instance, on a thousand orchards in Los Angeles county would cost but a trifle besides the jars and seasoning; yet the sale is so extensive that vast factories of it are maintained in countries where, never an orange grows. Its profit is seen in the fact that one English factory, now employing 1500 hands, began operations within the memory of middle-aged people now in Los Angeles with only the help of the proprietor and his wife. There is a lady in the suburbs of this city, the accomplished widow of a professional man, who, having a fine orange orchard, has wisely taken up this means of utilizing the unmarketable fruit. She has a recipe for a fine article of marmalade, and she and her equally-accomplished daughters put up this fruit nicely and supply it to the city trade. This is not the only line of available home manufactures. Pickles, horseradish, mucemeat, canned vegetables, even baked available home manufactures. Pickles, horseradish, mincemeat, canned vegetables, even baked beans and brown bread are imported heavily from thousands of miles, and sold by dealers who would rather sell a home article. They are also eaten by people who would much rather eat a home article. The odds are all in favor of the home manufacturer if he will only materialize. And are all in favor of the home manufacturer if he will only materialize. And the beauty of it is that these manufactures are nearly all things that require no expensive plant, neither buildings nor machinery, nor hired help, unless they run into big proportions, but can be done by any family by its own fireside and with its own hands. Some South Passadena ladies have also taken the matter up and under the name of the "Woman's Fruit-preserving Union" made quite a success of it during the past year. In these small beginnings is likely to be the easiest solution of the problem of home manufacture.

NOT ISOLATED CASES.

To show that the cures made by Joy's Vegetable Sarsaparilla are not only; not exceptiona cases, but that it helps everybody, we cite a few instances where two in the same family took it and were both cured.

Thomas Stephens, of 168 Sixth St., S. F., took it for weak stomach and dyspepsia, It entirely cured him. He then gave it to his wife for her sick headaches, since which time she has had no return. It cured them both.

Mrs. R. L. Wheaton, of 704 Post St., S. F., was a sufferer from stomach and liver troubles and billousness. Finding that it relieved her, she gave it to a little girl living with her whose affiction was a large open sore which nothing seemed to heal. It also cured the child.

H. S. Winn, of Geary Court, Geary St., S. F., prominent in the Order of Red Men, was very feeble and greatly reduced. Joy's Vegetable Sarsaparilla restored his health and accustomed vigor. He thereupon gave it to his wife who was similarly afflicted and had nervous prostration. It had the same happy effect upon her it had upon him. Scores of similar cases could be had upon him. Scores of similar cases could be cited but we have no room for them here.

THE ANNUAL NOW READY.

The ANNUAL TRADE NUMBER of the Los Angeles Times is now ready for delivery at the counter of the business office.

This handsome illustrated publication, of 48 large pages, with lithographed cover and three maps, is declared by all who have seen it to be by far the finest thing of a similar character ever issued from a Los Angeles printing establishment.

The demand for the Annual is already heavy. It would therefore be well for those who desire quantities to send in their orders early.

before long. We would like to see the roads have a good chance to get thoroughly dry first. THE Grand Army posts of New York

city have resolved to take up the work, John W. Green's appointment as postcompleting the Grant monument fund. It is about time. Signs of an early commencement on

a railroad to Salt Lake multiply. Signs are very good in their way, but we would like to see work commenced in earnest on the road.

Poor humanity must have some kind of stimulant. If one is taken from him he flies to another. Some Maine physicians declare that "Jamaica all who have dared to sign a protest ginger drunkenness" is growing to which has been circulated against Mr. est serious proportions in that State.

In their frenzied assault upon this journal the organs of the prospective p.m. are placed at a disadvantage, be cause they cannot resort to the usual cheap clatter about "personal dislikes," etc. We oppose this appointment because it is not made on the merits, but, we suspect, to pay a personal debt. It is a case of son.

WE notice that the eager but tottering Trombone is inclined to run to pyramids. The local Federal pyramid, wever, is not yet completed; and when it is completed, its several indionent parts will each and all decline to put up for the rescue of ottering Trombone. Most of the streets of Los Angeles are marked by a fair degree of regularity; that is to say, they are laid out on lines of survey, and though not in harmony with the points of compass, they are mainly on parallel lines. But Temple street has not this character at all. It is irregular from one end to the other. This resulted from the conformation of the hills through which it trends. In early times the travel up and down the coast, all of which came through the Cahuenga Pass, reached this city from the north by going around to the south of the hills lying in the western suburb. This was several miles out of the direct line to the city, but there was no shorter way, inless by mere bridle-paths, until Temple street was marked out and opened up. Hills were not altogether avoided by the new route, but the distance was so much shortened as to compensate for all the hills that had to be encountered, except for heavily loaded teams, which continued to make their entrance into the city by the more circuitous route, until Temple street was partially graded and put in passable traffic condition. Temple street, though in part occupied cable railway, is still most eligible entrance into the city for all the travel and traffic up the coast which is not carried on by railroad, and as well for the large population of Cahuenga Valley and the region to the northwest of the city. But Temple street should be put in much better condition for use than it now is

Should that undesirable event happen, it will in no degree change our already plainly-expressed opinion that he is not the right man for the place, and that he is not, by very long odds, the best man who could have been selected. We believe that Mr. Green would be likely to be a still less efficient postmaster than he was during his former incumbency, for it is a notorious fact that his personal habits have not improved, and that they are not what they should be in a

The members of the Board of Pub lic Works had a hard day of it vesterday. It was the first chance ride about the city under the rays of a bright sun, and they made the most of it. The party left the City Hall in their handsome four-in-hand and rode merrily to the southern portion of the city where they had several petitions to look after. After looking over the bad streets and deep cuts from the late rainstorm the excursionists amused themselves a few minutes in looking at the green grass and wild flowers and then drove back to a point near the City Hall, where they indulged in a healthful drink of cold water and dismissed their handsome carriage and uniformed driver.

Chinese advices report the wreck of the British ship Nye Ghau from Yarmouth, N.S., in Pratas shoal, on November 25th. Capt. Butler and eight men ar days later. Another boat containing Mate Briggs and six men is missing. The British at Cockchafer left Hoog Kong in

search of the boat, but returned without finding her. Meager particulars are received of the theater collapse in Shantung, China, reported by telegraph from Shanghai on December 3d. It appears the necident occurred at Hunting, east of Shantung on October 13th last. The temple, where the performance was being held, stands on a high terrace in the middle of the town. A hil was once there, but has been cut away, except the portion on which the temple stands. A wall almost perpendicular, and stone 50 feet high, was built up from the street to support the terrace. This wall ended in a low parapet around the temple inclosure, furnishing a seating capacity for an immense number of people.

During a performance the entire wall gave way, either from being defective or from the great pressure abova, and the whole mass, men, women and children, were hutled to the street below. Groans and shriets from the air. Prople the bad theater collapse in Shantung, China, re-

moment last by their surrounding and others, who were momentarily stunned, met death by being trampted upon while trying to escape. All this time immense blocks of stone and concrete from the broken wall fell with deadly force. Heads were burst open, bedies crushed, arms and legs broken, and, in a number of cases, almost severed from the body. A total of 200 dead bodies have been taken from the ruins, and it is thought the list of the dead may number 250.

accessful Test of an Electric Motor Plant-The Trotting Horsebreeders' Association Adopt Bylaws.

By Telegraph to The Times. SAN FRANCISCO, Jav. 9.—[By the Associated Press,] Miss Kate Kennedy, who in 1887 lost her position as principal of the North Cosmopolitan Grammar School by order of the Board of Education, was today reinstated by the opinion of the Supreme Court affirming Judge Hunt's judgment. She will also realize about \$5000 back pay, and her successor, Miss Stinson, now principal of the Cosmopolitan, will have to va-cate. The Supreme Court holds, in brief, that under the statutes a school teacher against whom no possible charges can be found, is not an employé who can be dis-missed or removed at pleasure. The opinion missed or removed at pleasure. The opinion of the Court is altogether based on section 1793 of Political Cede as follows: "Holders of city certificates are eligible to teach in cities in which such certificates were granted in schools of grades corresponding to the grades of such certificates, and when elected shall be dismissed only for violation of the rules of the Board of Education or for incompetency, unprofessional or immoral conduct. Holders of special certificates are eligible to teach

fessional or immoral conduct. Holders of special certificates are eligible to teach special studies mentioned in their certificates are all schools in the city in which such certificates were granted."

In answer to the objection that in case a teacher cannot be dismissed by a board of education that his position will be virtually one for life, the Court holds "this certainly cannot be of danger to the efficiency of the schools, because a teacher can ably maintain his position while competent and faithful." A FUNNY CASE.

Road Overseer Valdez and the Board of Supervisors.

A rather funny case came before the Board of Supervisors yesterday. At the last election H. H. Denker wa Democratic candidate for Road Overseer in the Laurel district. This particular district is out in the Cahuenga, and, under ordinary circumstances, is hopelessly Democratic, so that Mr. Denker thought that he would have a walk-over. The Republicans, however, did not propose to give up the fight until it had been won, and put up an old Mexican named Valdez as their nght until it had been wob, and put up an old Mexican named Valdez as their candidate. The election came off in due time, and, to Mr. Denker's surprise, when the votes were counted he found that he was just 38 behind his opponent. The result was a frightful set-down on the able Denocrat, and ever since the election he has been waiting for a chance to get even with the man who knocked him out. The opportunity presented itself, as Mr. Denker thought, when the Cahuenga Producers' Union was organized, and he at once proceeded to get up a memorial to the Board of Supervisors, asking for the removal of Valdez on the ground of incompetency. Being a man of considerable influence, he had no trouble in getting signers to the document, which came up for action yesterday. Valdez, on the other hand, did not propose to give up the office to did not propose to give up the office. to which he had been elected without a struggle, and retained George M. Halton to represent him. It appears that the contestant, Mr. Denker, had lost the contestant, Mr. Denker, had lost sight of the fact that the law in regard to road overseers had been changed, and that instead of being appointed by the Supervisors, they were elected by the people, and could not be removed, except in the same manner as the Supervisors, so that when Mr. Denker stated that when Mr. Denker stated

him a more competent man than the self. He at first appeared not to understand what the attorney was getting at, but when it dawned on him, he was perfectly willing to quit. By the provisions of the law by which we devergers are alected by the provisions. road overseers are elected by the peo-ple, the Supervisors of each district are made responsible for the road work in each one, and the board, seeing the hole into which it had got itself, wiggled out by referring the whole matter to Supervisor Davis, in whose district Valdez is located, and there it will probably rest.

The notice of the public is called to the fact that this bank only loans money on approved real-extate security; that it does not loan money to its stockholders, officers or clerks; that among its stockholders are some of the come unit; that, under the Starelaws the private extates of its stockholders are prorataliable for the total indebtedness of the bank.

These facts, with care exercised in making Joans, insure a safe depository for saving accounts. School teachers, clerks, mechanics, employees in factories and shops, laborers etc. will find it convenient to make deposit in small amounts.

The grounds are surrounded by towering trees which shield the players from the glare and heat of the sun's rays the whole year round.

Yesterday the regular monthly tournament was played. A more perfect day could not have been chosen, the clear sky and the bracing air favoring the contestants in no small degree, and making brilliant plays the rule rather than the exception.

The gentlemen's singles began at 9 o'clock. Short sets wore played and the best two in three sets won determined the winner. Parker beat Channing, 4-1, 4-0; Barnes beat Susmers, 4-0, 40; Gilmore, who had drawn a bye, beat Parker, 4-0, 4-1, after which Lindsey succumbed to Barnes after a decidedly brilliant and close contest, the score being 1-4, 4-2, 4-3.

The ladies' singles followed. Miss English won two straight sets from Miss Trew, 4-2, 4-1, and Miss Cooley beat Miss Bradley, 1-4, 4-0, 4-0.

The finals between Gilmore and Channing and Lindsey and Barnes will be played next. The winners received handsome prizes. Two tournaments are likely to be held in February.

As yesterday's contests were good proof, the club has on its membership list players who play what is known technically as a "stiff" game. At the head of the list stands Mr. Clarence A. Barnes. He plays at all times a strong game, and some of his volleys and returns are brilliant. He is the master of several puzzling services, which aid him materially in winning a set. In placing a ball he has few equals. He plays a good double game, but is sent to best advantage in singles.

well known for the steady game he invariably plays. He rarely gets "ratled," and in singles or doubles he can usually be counted upon as a probable winner, unless strongly opposed on the opposite side of the net. His underhand service is especially effective.

One who hits the ball hard and with telling effect is Harold S. Channing. He has a way of returning a service or volley with a velocity that is startling. He also serves a very swift ball which only a mighty active opponent can put

Clarence E. Martin not many months The Valley Hunt. Clarence E. Martin not many months ago was a tyro at the game. But it did not take him long to pick up the necessary requirements, and now the older players have to be very lively to beat him. His service is especially effective.

The official duties of P. A. V. Van Doren prevent his frequent appearance on the club grounds. Occasionally, however, he drops in long enough to indicate to more aspiring players that he knows a thing or two about the game, and can hit the balls with the best of them.

indicate to more aspiring players that he knows a thing or two about the game, and can hit the balls with the game, and can hit the balls with the game. He plays with no mean is kill, and his opponents usually find him a hard man to beat.

Mr. Parker has been a member of the club but a short time, but he has had sufficient practice with similar organizations in the East to enable him to hold his own with the majority of the Pasadena players.

Mr. F. Martin Summers is the latest addition to the club. He is the crack player at the Painter Hotel, and is not a masy man to beat. He plays a steady game right along, and frequently makes a return or volley, exceptional for its brilliancy. He is a valuable addition to the club.

Probably no club of its size in the country can boast of as large a proportion of good players from the ranks of the fair sex. Miss English, the present holder of the ladies' singles medal, has few superiors in the matter of handling a racquet effectively. A swift and effective service and great, skill in returning or volleying a ball render her a formidable player to oppose. She is equally strong in singles or doubles.

In Miss Shoemaker, however, is found a worthy contestant. Her game is always a hard one, returning the best lady players in the club. She seldom gets 'rattled,' and a strong and steady game is usually expected of her. She prefers doubles to singles.

Asother member who is well up in all the requirements of the game is Miss Trew also ranks among the best lady players in the club. She seldom gets 'rattled,' and a strong and steady game is usually expected of her. She prefers doubles to singles.
